£10 per match home and away - collected by team captain or organiser

Fuel Expenses - Policy for 2021

1. No fuel is paid for home games - players sharing lifts to home games to sort out fuel between themselves.
2. Anyone driving to an away game without any other players or umpires or scorers will not be entitled to any fuel expenses.
3. Anyone driving to an away game with one or more passengers who are either players or umpires or scorers will be entitled to fuel expenses. Note we encourage all drivers to take more than one players / official where possible. It was proposed at the AGM to raise the fuel expenses qualifying from 1 player/official to 2. It was agreed that this be revised mid-season and potentially implemented if we have lots of cars travelling to away games with just the driver and one other player/official
4. Fuel expenses will be paid as a mileage rate determined as a return trip from the drivers home postcode to the postcode of the away ground.
5. The rate paid will be 12p per mile
6. The driver to submit by email to the O50/60s head of finance Jon Nance details of the journey : both postcodes, total milage, total claim and confirmation of the playing or officiating passengers. Send by email to : jonandjackie.nance@gmail.com
7. Fuel will not be paid without the email submission
8. Players getting lifts to away games to pay £5 each directly to the driver.
