
A close-up, black and white profile of a lion's face, looking towards the left. The lion's eyes are sharp and focused, and its whiskers are prominent on the right side of its face. The background is dark, making the lion's features stand out.

NV Play Cricket

An update on PCS Pro
for Recreational Clubs

SEASON UPDATE 2023

Game
Changing
Software

nvplay

NV Play are proud to have delivered the PCS Pro platform on behalf of the ECB, since 2018.

**NV Play
is a fully
featured,
industry
defining
cricket
technology
platform,
designed
for every
level of the
game.**

Global benchmark in professional scoring

Live Streaming with automated score & overlays

Track performance across multiple matches

Collaborative scoring with end of over checks

Online Match Centres with live stats & video

Automated video highlights publication

Scoreboard integration & video replay screen

Win and Score Predictor (WASP)

Player performance and contribution analysis

Automated match sheets and summary stats

Full DLS 4 and DL Standard integration

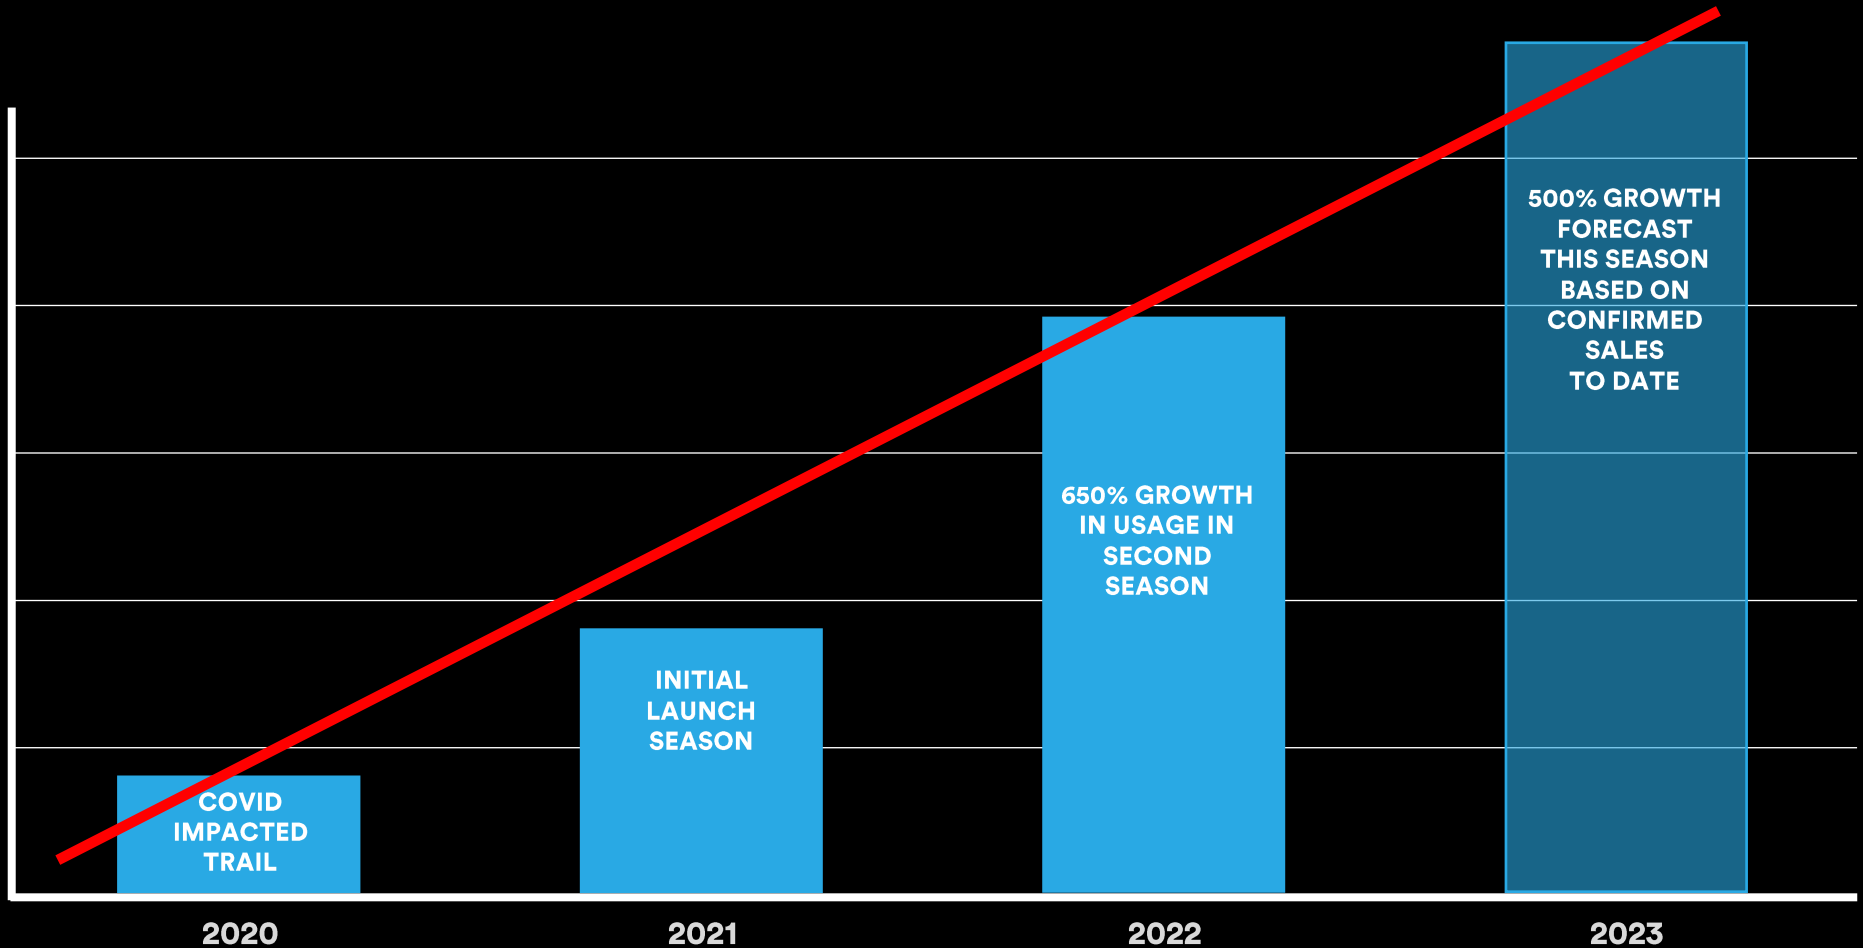

Automatically publish score updates to Twitter

Join 300+ NV Play Clubs now Live Streaming.

With hundreds of new Clubs joining the streaming revolution every season.

KNOWLE & DORRIDGE CC

“The introduction of NV Play Live Streaming for PCS Pro in our home matches has been a huge benefit to us as a cricket club. We have acquired new sponsors and generated greater revenues from current sponsors whilst growing our online presence as a further result of the exposure our live streams have created. We are heavily reliant on sponsorship and the broadcast style features of NV Play has opened new doors for us.”

EALING CC

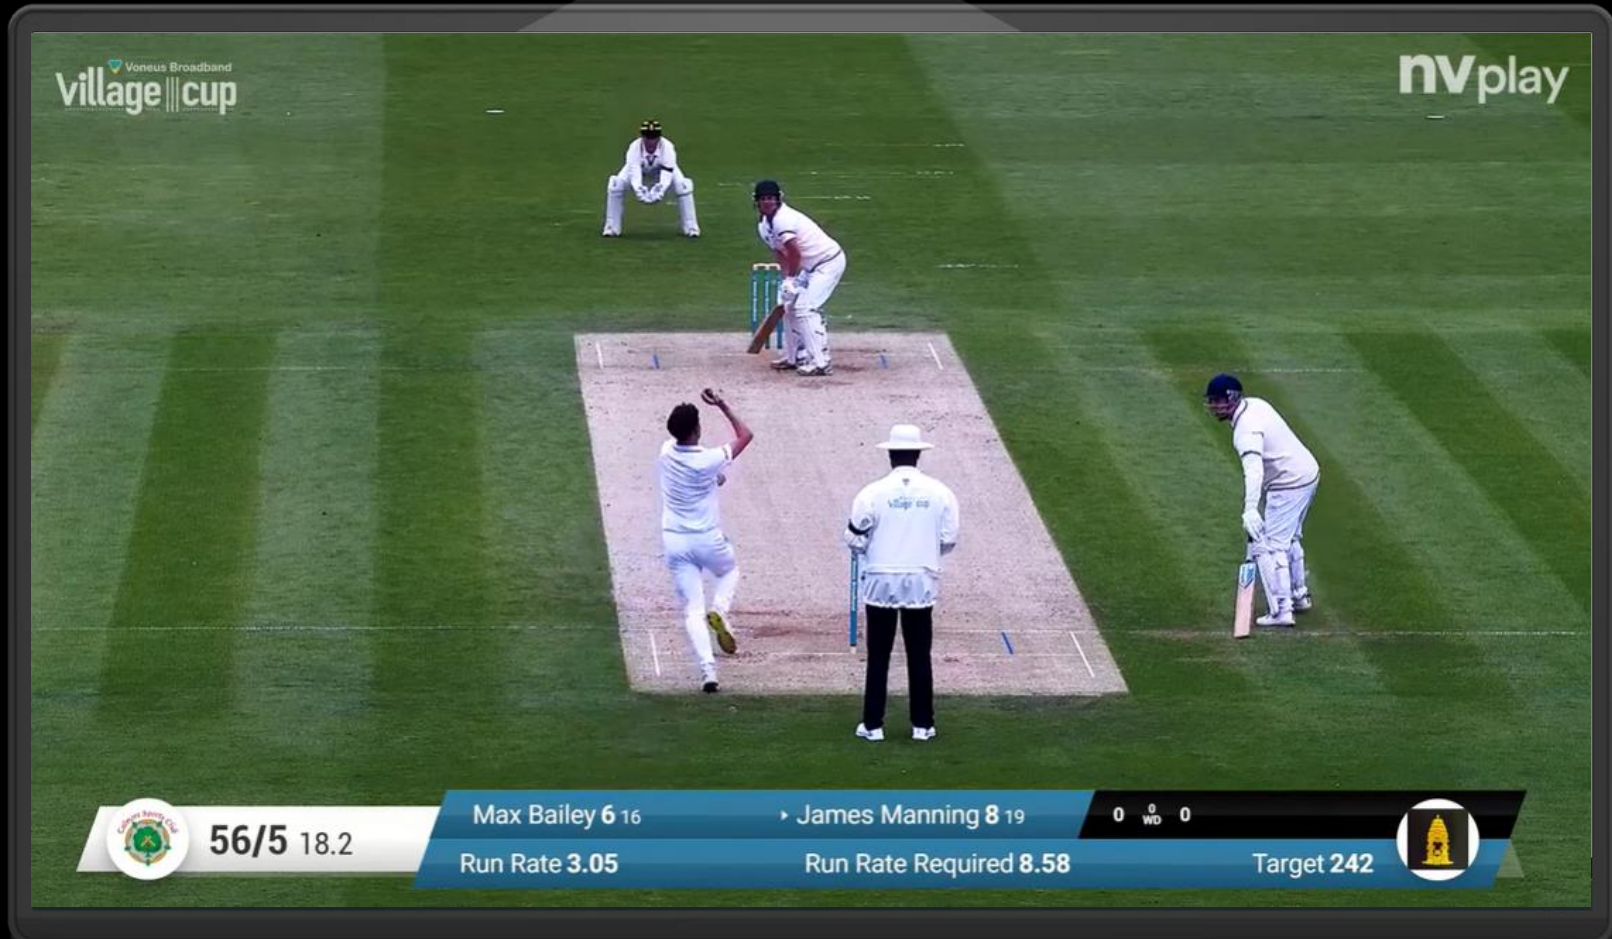

“The equipment is fantastic and easy to use, it all links up with Play-Cricket and our scorer already uses PCS Pro to score. This year we will be showing the Live Stream on the TV in the pavilion and then putting together a highlights reel which is easy to do via NV Play’s Video Package Manager. Having a system that works both online and offline is a great solution for us as a club.”

The screenshot displays the NV Play Cricket software interface for a match between New Zealand (NZ) and South Africa (SA) on 19 Jun 2019. The interface is divided into several panels:

- Score Summary:** Shows NZ 235/6 (48.1) and SA 241/6. Key statistics include Wasp (56%), DLS (233), and Over Rate (14.1).
- Play Control:** Displays the current batsman (KS Williamson) and bowler (AL Phehlukwayo) with their respective scores and statistics.
- Scoring:** A grid of buttons for various shot types such as Forward Defence, Sweep, and Hook.
- Fielding:** A list of fielders and their positions on the field.
- Pitch Map:** A circular diagram showing the fielding positions and the ball's trajectory.
- Ball Arrival:** A video-style view of the ball hitting the stumps.
- Ball by Ball:** A table showing the details of each ball bowled, including the batsman, bowler, and result.
- Main Scoreboard:** A large panel showing the current score (235/6) and player statistics for Williamson* (96) and Santner (2).
- Scorecard:** A detailed table of player statistics, including runs, wickets, and averages.

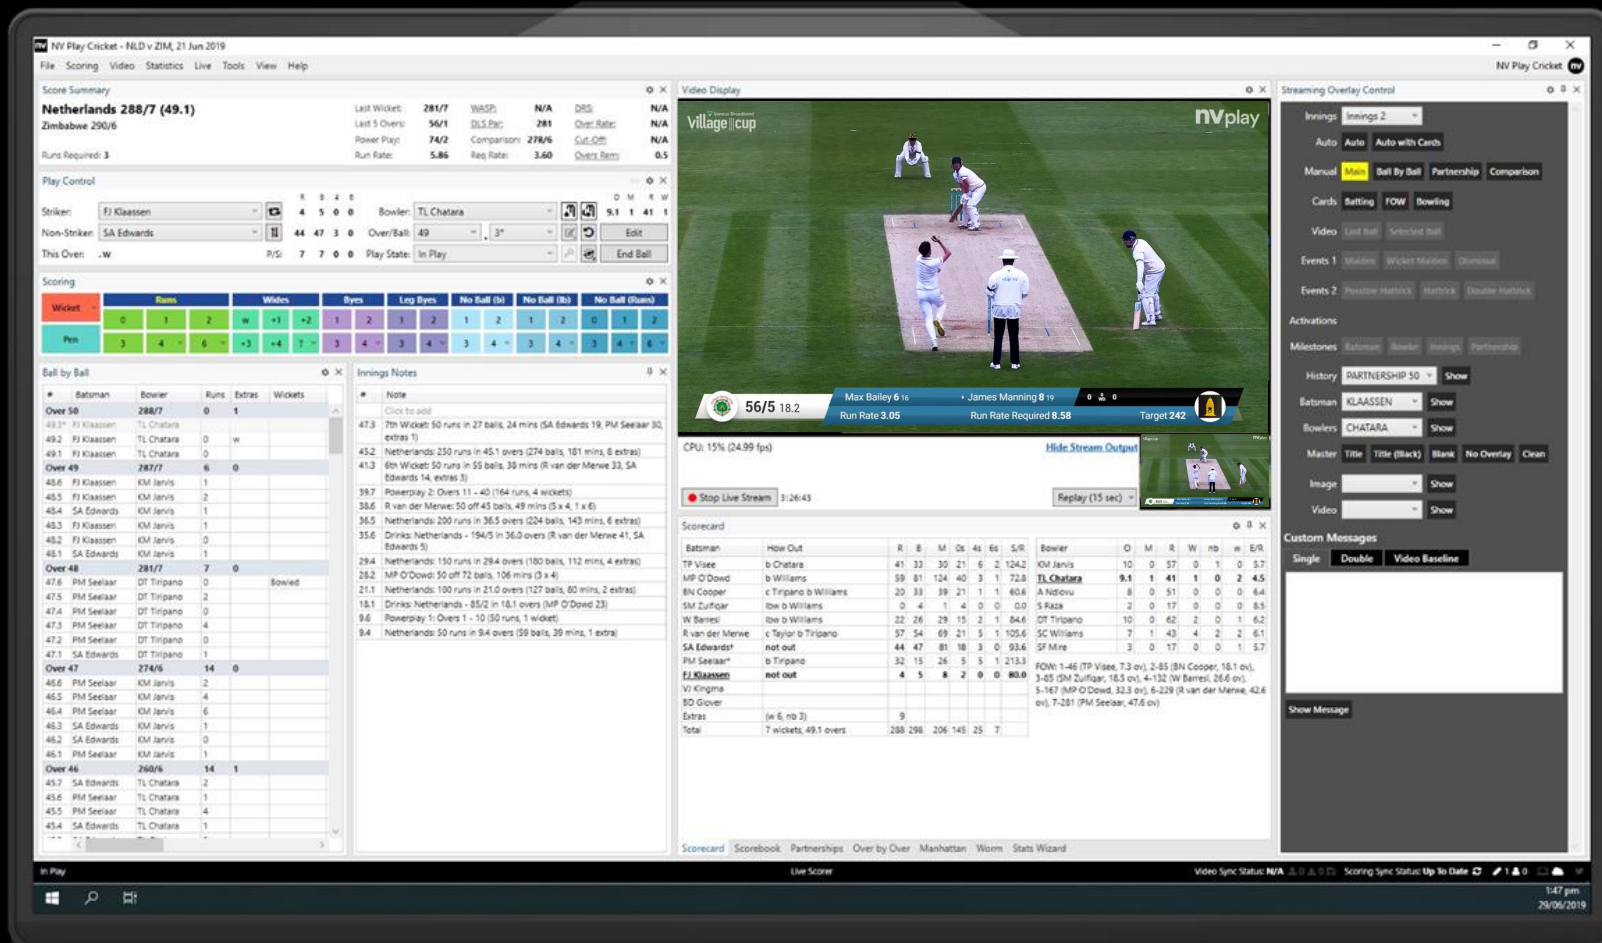

Professional scoring as used at the International level for over a decade, now available for club and recreational use via PCS Pro.

Broadcast grade live streaming, straight out of the box.

Support options

- **Matchday customer helpdesk every weekend in-season** for prompt assistance with at ground issues, manned by product experts
- Built in “traffic light” **performance monitoring tools** to monitor real time camera connection stability, internet stability and stream upload
- **Comprehensive knowledgebase** with how to guides, instructional articles and setup videos designed to help you **get the most out of** your video investments
- Automated diagnostics reporting to assist with complex issue diagnosis

Laptop specs

- **Windows 10 or 11, Home, Professional or Enterprise edition**
NB: Windows S is not supported
- **Intel i7 CPU, 8th Generation or newer with 8GB RAM or more**
- Minimum **256GB 7200 RPM** hard drive or **SSD drive** (preferable, for storing ball video clips and highlights packages)
- **Full HD screen (1920x1080)** preferred as a minimum
- **NVIDIA Graphics card (RTX 3050)**
- **Reputable brand** to ensure solid internal componentry

Internet specs

- Minimum **8mbps upload** speed
- We recommend that an **Unlimited** data package is used when streaming to avoid additional costs
- If using mobile data, ensure consistent **strong coverage** at your primary streaming venues
- Estimated Live Streaming **data usage** at the below Resolutions with the default Target Bitrates are:

1080p at 4,500 kbps	2GB of data p/hr
720p at 4,500 kbps	1.1GB of data p/hr
480p at 4,500 kbps	0.5GB of data p/hr

Licence costs

*DISCOUNTED THREE YEAR DEAL

We are pleased to offer a 50% Y1 discount on Live Streaming on multi-year agreements.

2023	just £250	Streaming + Highlights
2024	£500	Streaming + Highlights
2025	£500	Streaming + Highlights

*ROLLING SINGLE SEASON LICENCE

If you prefer to just take it one year at a time, you can simply opt for a 2023 season licence.

2023 only	£100	Highlights only
2023 only	£500	Streaming + Highlights

Simply renew each year with no long-term commitments.

*All Prices Exclude VAT.
